THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2018

or

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File Number 001-33525

COMMAND SECURITY CORPORATION

(Exact name of registrant as specified in its charter)

New York
(State or other jurisdiction of
incorporation or organization)

14-1626307
(I.R.S. Employer
Identification No.)

512 Herndon Parkway, Suite A, Herndon, VA
(Address of principal executive offices)

20170
(Zip Code)

(703) 464-4735

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definition of "accelerated filer," "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of outstanding shares of the registrant's common stock as of July 24, 2018 was 10,134,662.

COMMAND SECURITY CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The accompanying condensed consolidated financial statements presented herein have not been audited, and have been prepared in accordance with the instructions to Form 10-Q which do not include all of the information and note disclosures required by generally accepted accounting principles in the United States. These financial statements should be read in conjunction with our consolidated financial statements and notes thereto as of and for the fiscal year ended March 31, 2018. In this discussion, the words “Company,” “we,” “our,” “us” and terms of similar import should be deemed to refer to Command Security Corporation and its consolidated subsidiaries.

The condensed consolidated financial statements for the interim period shown in this report are not necessarily indicative of our results to be expected for any period after the date hereof, including for the fiscal year ending March 31, 2019, or for any other subsequent period. The condensed consolidated financial statements include the consolidated accounts of the Company with all intercompany transactions eliminated. In the opinion of our management, the accompanying condensed consolidated financial statements reflect all adjustments, consisting of only normal recurring adjustments, considered necessary for a fair presentation of the financial statements included in this quarterly report. All such adjustments are of a normal recurring nature.

1. Recently Issued Accounting Standards

In May 2014, the FASB and the International Accounting Standards Board (IASB) issued, ASU 2014-09 (*Topic 606 Revenue from Contracts with Customers*). The guidance substantially converges final standards on revenue recognition between the FASB and IASB providing a framework on addressing revenue recognition issues and, upon its effective date, replaces almost all existing revenue recognition guidance, including industry-specific guidance, in current U.S. generally accepted accounting principles. In July 2015, the FASB issued ASU No. 2015-14, “Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date”, which deferred the effective date of ASU No. 2014-09 by one year, making it effective for the Company’s fiscal year ending March 31, 2019. Subsequently, the FASB also issued a series of amendments to the new revenue standards. The new revenue standards may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of adoption. Based on the Company’s evaluation process and review of our contracts with customers, the timing and amount of revenue recognized based on ASU 2014-09 is consistent with our revenue recognition policy under previous guidance. We adopted the new standard effective April 1, 2018, using the modified retrospective approach and have expanded our consolidated financial statement disclosures in order to comply with the ASU.

In February 2016, the FASB issued ASU No. 2016-02, “*Leases (Topic 842)*”, which requires lessees to recognize a lease liability and a right-to-use asset on the balance sheet for all leases, except certain short-term leases. ASU 2016-02 is effective beginning with the Company’s fiscal year ending March 31, 2020, with early adoption permitted, and must be implemented using a modified retrospective approach for all leases existing at, or entered into after the beginning of the earliest comparative period that is presented in the financial statements. The Company is currently evaluating the impact of ASU 2016-02 on its consolidated financial statements. The adoption of this guidance is expected to result in a significant increase in assets and liabilities on the Company’s balance sheet, with no material impact on the statements of operations. However, the ultimate impact of adopting ASU 2016-02 will depend on the Company’s lease portfolio as of the adoption date.

In August 2016, the FASB issued new guidance on cash flow statement presentation ASU 2016-15, *Statement of Cash Flows (Topic 230); Classification of Certain Cash Receipts and Cash Payments*. This ASU addresses diversity in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The new guidance is effective beginning with the Company’s fiscal year ending March 31, 2019, with early adoption permitted. The adoption of ASU 2016-15 is not expected to have a material impact on the Company’s consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04 “*Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*”, which eliminates Step 2 from the goodwill impairment test. Instead, an entity should perform its annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount and recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit’s fair value, not to exceed the total amount of goodwill allocated to the reporting unit. ASU 2017-04 is effective for annual or any interim goodwill tests in fiscal years beginning after December 15, 2019. The adoption is not expected to have a material impact on the consolidated financial statements.

COMMAND SECURITY CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

2. Revenue Recognition

Adoption of New Accounting Guidance on Revenue Recognition

Effective April 1, 2018, we adopted the new accounting guidance on revenue recognition using the modified retrospective approach. Based on the Company's evaluation process and review of our contracts with customers, the timing and amount of revenue recognized under the new guidance is consistent with our revenue recognition policy under previous guidance. The new guidance has not had a material impact on our results of operations, cash flows or financial condition.

Our customer contracts generally include payment terms which vary by the type of customer and services offered. Customer payments are generally due within 30 to 45 days upon receipt of invoice. The timing between satisfaction of a given performance obligation and invoicing is not significant. In certain situations we may require payment prior to delivery of services to the customer, in which cases deferred revenue is recorded. Deferred revenue was not material as of June 30, 2018.

Revenue Recognition and Service Types

We provide armed and unarmed uniformed security personnel for access control, loss prevention, mobile patrols, traffic control, security console or system operators and fire safety directors, as well as provide personnel for reception, concierge and front desk or doorman operations. We also provide aviation security services and aviation passenger services such as passenger and cargo screening, baggage screening, wheelchair escort services, special escort services in secured areas as required and skycap services. Our contracts contain single performance obligations. We recognize revenue from these performance obligations over time, as services are performed, in amounts that reflect the consideration we expect to be entitled to receive in exchange for the services we provide, net of applicable taxes. Generally, revenues from all services rendered are based on contractual rates per hour or a specific cost per defined unit of activity.

We generally determine standalone selling prices based on the prices included in the customer contracts. The price as specified in our customer contracts is generally considered the standalone selling price.

Practical Expedients and Exemptions

We recognize revenue based on contractual rates over time for which we have the right to invoice for services performed. As allowed under the new guidance, we are not required to disclose the amount of unsatisfied performance obligations.

Disaggregation of Revenues

The following table presents revenue disaggregated by service type, substantially all of which is transferred over time:

Service Types	Three Months Ended June 30, 2018		
	Security Division	Aviation Division	Total
Security services	\$ 28,394,578	\$ 9,771,985	\$ 38,166,563
Aviation passenger services	-	5,922,785	5,922,785
	<u>\$ 28,394,578</u>	<u>\$ 15,694,770</u>	<u>\$ 44,089,348</u>

Accounts Receivable, Contract Assets and Contract Liabilities

We record accounts receivable when our right to consideration becomes unconditional. We record contract liabilities (deferred revenue) when payments are received prior to the satisfaction of the related performance obligations. The current portion of our contract liabilities is included in accrued liabilities in our Consolidated Balance Sheets. We did not have any material contract assets or long-term contract liabilities as of June 30, 2018.

3. Short-Term Borrowings:

On February 12, 2009, we entered into a credit facility (the "Credit Agreement") with Wells Fargo Bank, National Association ("Wells Fargo"). This credit facility, which was most recently amended in March 2018 (see below) and matures March 31, 2020, contains customary affirmative and negative covenants, including, among other things, covenants requiring us to maintain certain financial ratios and is collateralized by customer accounts receivable and certain other assets of the Company as defined in the Credit Agreement.

The Credit Agreement provides for a letter of credit sub-line in an aggregate amount of up to \$1.5 million. The Credit Agreement also provides for interest to be calculated on the outstanding principal balance of the revolving loans at the floating 90 day LIBOR rate plus 1.75%. For LIBOR loans, interest will be calculated on the outstanding principal balance of the LIBOR loans at the 30 day LIBOR rate plus 1.75%.

On March 14, 2018, we entered into a ninth amendment (the "Ninth Amendment") to our Credit Agreement. The Ninth Amendment increased the revolving line of credit from \$27.5 million to \$35.0 million.

Under the Credit Agreement, as of June 30, 2018, the interest rate was 3.75% for LIBOR loans and 4.125% for revolving loans, an increase of 0.875% and 1.00%, respectively, as compared with June 30, 2017. At June 30, 2018, we had approximately \$1.4 million of cash on hand, \$13.0 million of LIBOR loans outstanding, \$3.6 million of revolving loans outstanding and \$0.3 million outstanding under our letters of credit sub-line under the Credit Agreement, representing approximately 64% of the maximum borrowing capacity under the Credit Agreement based on our "eligible accounts receivable" (as defined in the Credit Agreement) as of such date. As of the close of business July 30, 2018, we had total short term borrowings, net of cash, of approximately \$11.0 million, representing approximately 60% of the maximum borrowing capacity under the Credit Agreement based on our "eligible accounts receivable" (as defined in the Credit Agreement) as of such date.

We rely on our revolving loan from Wells Fargo which contains a fixed charge covenant and various other financial and non-financial covenants. If we breach a covenant, Wells Fargo has the right to immediately request the repayment in full of all borrowings under the Credit Agreement, unless Wells Fargo waives the breach. For the three months ended June 30, 2018, we were in compliance with all covenants under the Credit Agreement.

4. Other Assets:

	<u>June 30, 2018</u>	<u>March 31, 2018</u>
Workers' compensation insurance	\$ 1,973,454	\$ 3,321,345
Deferred tax asset	3,069,041	3,382,041
Security deposits	132,966	126,428
Other receivables	74,472	-
	<u>5,249,933</u>	<u>6,829,814</u>
Current portion	<u>(2,047,926)</u>	<u>(3,321,345)</u>
Total non-current portion	<u>\$ 3,202,007</u>	<u>\$ 3,508,469</u>

The other asset workers' compensation insurance represents the net amount of the payments made to cover the workers' compensation insurance premium against the actual premium due as well as the difference in the amount deposited to the loss fund less the estimated workers' compensation claims and reserves related to the historical loss claims as well as the estimates related to claims incurred but not reported. There is no offsetting claim liability reported as the Company has determined that there is a sufficient amount deposited into the loss funds to cover the estimated claims reserve as well as the estimate related to claims incurred but not reported.

COMMAND SECURITY CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

5. Accrued Expenses and Other Liabilities:

	<u>June 30, 2018</u>	<u>March 31, 2018</u>
Payroll and related expenses	\$ 6,917,137	\$ 10,117,671
Taxes and fees payable	312,529	324,823
Accrued interest payable	53,035	63,401
Other	1,643,855	1,247,528
Total	<u>\$ 8,926,556</u>	<u>\$ 11,753,423</u>

6. Insurance Reserves:

We have insurance policies covering workers' compensation claims in states where we perform services. Estimated accrued liabilities are based on our historical loss experience and the ratio of claims paid to our historical pay-out profiles. Charges for estimated workers' compensation related losses incurred and included in cost of sales were \$488,177 and \$726,418 for the three months ended June 30, 2018 and 2017, respectively.

The nature of our business also subjects us to claims or litigation alleging that we are liable for damages as a result of the conduct of our employees or others. We insure against such claims and suits through general liability policies with third-party insurance companies.

Our insurance coverage limits are currently \$1.0 million per occurrence for non-aviation related business (with additional first and second layer excess liability policies of \$5.0 million and \$10.0 million, respectively) and \$30.0 million per occurrence for aviation related business. We retain the risk for the first \$25,000 of general liability non-aviation related operations. The aviation related deductible is \$5,000 per occurrence, with the exception of \$50,000 for airport wheelchair and electric cart operations, \$25,000 for damage to aircraft and \$100,000 for skycap operations. Estimated accrued liabilities are based on specific reserves in connection with existing claims as determined by third party risk management consultants and actuarial factors and the timing of reported claims. These are all factored into estimated losses incurred but not yet reported to us.

Cumulative amounts estimated to be payable by us with respect to pending and potential claims for all years in which we are liable under our general liability retention and workers' compensation policies have been accrued as liabilities. Such accrued liabilities are necessarily based on estimates; accordingly, our ultimate liability may exceed or be less than the amounts accrued. The methods of making such estimates and establishing the resultant accrued liability are reviewed continually and any adjustments resulting therefrom are reflected in our current results of operations.

Workers' compensation annual costs are comprised of premiums as well as incurred losses as determined at the end of the coverage period, subject to minimum and maximum amounts. Workers' compensation insurance claims and reserves include accruals of estimated settlements for known claims, as well as accruals of estimates for claims incurred but not yet reported. In estimating these accruals, we consider historical loss experience and make judgments about the expected levels of costs per claim. We believe our estimates of future liability are reasonable based upon our methodology; however, changes in health care costs, accident frequency and severity and other factors could materially affect these estimates. The Company continually monitors changes in claim type and incident and evaluates the workers' compensation insurance accrual, making necessary adjustments based on the evaluation of these qualitative data points.

COMMAND SECURITY CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

7. Income Taxes

On December 22, 2017, the United States government (“U.S.”) enacted significant changes to the U.S. tax law following the passage and signing of H.R.1, “An Act to Provide for Reconciliation Pursuant to Titles II and V of the Concurrent Resolution on the Budget for Fiscal Year 2018” (the “Tax Act”) (previously known as “The Tax Cuts and Jobs Act”). The Tax Act included significant changes to existing tax law, including a permanent reduction to the U.S. federal corporate income tax rate from 34% to 21%, a one-time repatriation tax on deferred foreign income, deductions, credits and business related exclusions.

On December 22, 2017, the SEC issued Staff Accounting Bulletin 118 (“SAB 118”). SAB 118 expresses views of the SEC regarding ASC Topic 740, Income Taxes (“ASC 740”) in the reporting period that includes the enactment date of the Tax Act. The SEC staff issuing SAB 118 (the “Staff”) recognized that a registrant’s review of certain income tax effects of the Tax Act may be incomplete at the time financial statements are issued for the reporting period that includes the enactment date, including interim periods therein. If a company does not have the necessary information available, prepared or analyzed for certain income tax effects of the Tax Act, SAB 118 allows a company to report provisional numbers and adjust those amounts during the measurement period not to extend beyond one year.

In accordance with SAB 118, the provision estimates recorded represent reasonable estimates of the effects of the Tax Act for which the analysis is not yet complete. As the Company completes its analysis of the effects of the Tax Act, including collecting, preparing and analyzing necessary information regarding foreign earnings and profits, performing and refining calculations and obtaining additional guidance from such standard setting and regulatory bodies as the U.S. Internal Revenue Services, U.S. Treasury Department and FASB, among others, it may record adjustments to the provisional estimates. The Company expects to finalize its provisional estimates at the earlier of the time it files its U.S. federal income tax return for the fiscal year ended March 31, 2018 or the end of the measurement period provided for under SAB 118, which is December 31, 2018. We have not made any measurement period adjustments related to these items during the three months ended June 30, 2018.

The following table sets forth the effective tax rates for the Company for the three months ended June 30, 2018 and 2017.

	Three months ended June 30,	
	2018	2017
Statutory federal income tax rate	21.0%	34.0%
State and local income taxes	8.1%	6.8%
Permanent differences	1.0%	6.5%
Minority investment in unconsolidated affiliate	-	7.5%
Other	0.3%	-0.7%
Effective tax rate	30.4%	54.1%

The decrease in the effective tax rate for the three months ended June 30, 2018 as compared with the three months ended June 30, 2017 was primarily attributable to the permanent reduction in federal tax rates from 34% to 21%.

8. Earnings per Share:

Under the requirements of FASB ASC 260-10, *Earnings Per Share*, the dilutive effect of our common shares that have not been issued, but that may be issued upon the exercise or conversion, as the case may be, of rights or options to acquire such common shares, is excluded from the calculation for basic earnings per share. Diluted earnings per share reflects the additional dilution that would result from the issuance of our common shares if such rights or options were exercised or converted, as the case may be, and is presented for the three months ended June 30, 2018 and 2017.

9. Contingencies:

The nature of our business is such that there is a significant volume of routine claims and lawsuits that are made against the Company, the vast majority of which never lead to the award of substantial damages. We maintain general liability and workers' compensation insurance coverage that we believe is appropriate to the relevant level of risk and potential liability that we face, relating to these matters. Some of the claims brought against us could result in significant payments; however, the exposure to us under general liability non-aviation related operations is limited to the first \$25,000 per occurrence. The aviation related deductible is \$5,000 per occurrence, with the exception of \$50,000 for airport wheelchair and electric cart operations, \$25,000 for damage to aircraft and \$100,000 for skycap operations. Any punitive damage award would not be covered by the general liability insurance policy. The only other potential impact would be on future premiums, which may be adversely affected by an unfavorable claims history.

We have been named or could be named as a defendant in uninsured employment related claims including claims related to wages and related benefits that are pending before various courts, the Equal Employment Opportunities Commission or various state and local agencies. We have instituted policies to minimize these occurrences and monitor those that do occur. At this time, we are unable to determine the impact on the financial position and results of operations that these claims may have, should the investigations conclude that such claims are valid. The impact of these claims could have a material adverse effect on the Company's financial position or results of operations.

We have employment agreements with certain of our officers and key employees with varying terms. The agreements generally provide for annual salaries and for salary continuation for a specified number of months under certain circumstances, including a change in control of the Company.

Approximately 50% of our workforce is not subject to a labor union. The remaining 50% of our workforce, including in particular, a number of employees based in our New York City security services office and at our airport offices at John F. Kennedy International and LaGuardia airports are subject to collective bargaining agreements. Two of the agreements, covering approximately 9% of our employees, expired on March 31, 2017 and June 28, 2017. We are currently involved in negotiations to renew the expired agreements. The remaining ten agreements are set to expire in September 2018 and thereafter.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following Management’s Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our condensed consolidated financial statements and the related notes contained in this quarterly report.

Forward Looking Statements

Certain of our statements contained in this Management’s Discussion and Analysis of Financial Condition and Results of Operations section of this quarterly report and, in particular, those under the heading “Outlook,” contain forward-looking statements. The words “may,” “will,” “should,” “expect,” “anticipate,” “believe,” “plans,” “intend” and “continue,” or the negative of these words or other variations on these words or comparable terminology typically identify such statements. These statements are based on our management’s current expectations, estimates, forecasts and projections about the industry in which we operate generally, and other assumptions made by our management, some or many of which may be incorrect. In addition, other written or verbal statements that constitute forward-looking statements may be made by us or on our behalf. While our management believes these statements are accurate, our business is dependent upon general economic conditions and various conditions specific to the industries in which we operate. Moreover, we believe that the current business environment is more challenging and difficult than it has been in the past several years, if not longer. If the business of any substantial customer or group of customers fails or is materially and adversely affected by the current economic environment or otherwise, they may seek to substantially reduce their expenditures for our services. Any loss of business from our substantial customers could cause our actual results to differ materially from the forward-looking statements that we have made in this quarterly report. Further, other factors, including, but not limited to, those relating to the shortage of qualified labor, competitive conditions and adverse changes in economic conditions of the various markets in which we operate, could adversely impact our business, operations and financial condition and cause our actual results to fail to meet our expectations, as expressed in the forward-looking statements that we have made in this quarterly report. These forward-looking statements are not guarantees of future performance, and involve certain risks, uncertainties and assumptions that we may not be able to accurately predict. We undertake no obligation to update publicly any of these forward-looking statements, whether as a result of new information, future events or otherwise.

As provided for under the Private Securities Litigation Reform Act of 1995, we wish to caution shareholders and investors that the important factors under the heading “Risk Factors” in our Annual Report on Form 10-K filed with the Securities and Exchange Commission with respect to our fiscal year ended March 31, 2018, could cause our actual financial condition and results from operations to differ materially from our anticipated results or other expectations expressed in our forward-looking statements in this quarterly report.

Critical Accounting Policies and Estimates

Critical accounting policies are defined as those most important to the portrayal of a company’s financial condition and results and that require the most difficult, subjective or complex judgments. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses during the reporting period. The estimates that we make include allowances for doubtful accounts, depreciation and amortization, income tax assets and insurance reserves. Estimates are based on historical experience, where applicable or other assumptions that management believes are reasonable under the circumstances. We have identified the policies described below as our critical accounting policies. Due to the inherent uncertainty involved in making estimates, actual results may differ from those estimates under different assumptions or conditions.

Principles of Consolidation

The consolidated financial statements include the accounts of Command Security Corporation and its consolidated subsidiaries. All intercompany balances and transactions are eliminated upon consolidation. The Company’s revenues and expenses transacted in foreign currencies are translated based on the monthly average exchange rate for the month in which each transaction occurred. Realized gains and losses on foreign currency transactions are recorded in general and administrative expenses on the Company’s consolidated statements of operations. Amounts recorded as foreign currency exchange gains and losses were not material for the three months ended June 30, 2018. Assets and liabilities of the Company denominated in foreign currencies are translated at the exchange rate in effect as of the balance sheet date. Amounts recorded as a result of translation adjustments are not material as of June 30, 2018 and therefore we did not present the translation adjustments as a separate component of accumulated other comprehensive income in the stockholders’ equity section of the consolidated balance sheets.

Revenue Recognition

We record revenues as services are provided to our customers. Revenues consist primarily of aviation and security services, which are typically billed at hourly rates. These rates may vary depending on base, overtime and holiday time worked. Revenue is reported net of applicable taxes.

Accounts Receivable

We periodically evaluate the requirement for providing for billing adjustments and/or reflect the extent to which we will be able to collect our accounts receivable. We provide for billing adjustments where management determines that there is a likelihood of a significant adjustment for disputed billings. Criteria used by management to evaluate the adequacy of the allowance for doubtful accounts include, among others, the creditworthiness of the customer, current trends, prior payment performance, the age of the receivables and our overall historical loss experience. Individual accounts are charged off against the allowance as management deems them to be uncollectible.

Intangible Assets

Intangible assets are stated at cost and consist primarily of customer lists that are being amortized on a straight-line basis over a period of ten years, and goodwill, which is reviewed annually for impairment. The life assigned to customer lists acquired is based on management's estimate of our expected customer attrition rate. The attrition rate is estimated based on historical contract longevity and management's operating experience. We test for impairment annually or when events and circumstances warrant such a review, if earlier. Any potential impairment is evaluated based on anticipated undiscounted future cash flows and actual customer attrition in accordance with FASB ASC 360, *Property, Plant and Equipment*.

Insurance Reserves

Estimated accrued liabilities related to our general liability claims are calculated on an undiscounted basis and are based on actual claim data and estimates of incurred but unreported claims developed utilizing historical claim trends. Projected settlements and incurred but unreported claims are estimated based on pending claims, historical trends and related data.

Workers' compensation annual costs are comprised of premiums as well as incurred losses as determined at the end of the coverage period, subject to minimum and maximum amounts. Workers' compensation insurance claims and reserves include accruals of estimated settlements for known claims, as well as accruals of estimates for claims incurred but not yet reported as provided by a third party. In estimating these accruals, we consider historical loss experience and make judgments about the expected levels of costs per claim. We believe our estimates of future liability are reasonable based upon our methodology; however, changes in health care costs, accident frequency and severity and other factors could materially affect the estimate for these liabilities. The Company continually monitors changes in claim type and incident and evaluates the workers' compensation insurance accrual, making necessary adjustments based on the evaluation of these qualitative data points.

Income Taxes

Income taxes are based on income (loss) for financial reporting purposes and reflect a current tax liability (asset) for the estimated taxes payable (recoverable) in the current year tax return and changes in deferred taxes. Deferred tax assets or liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using enacted tax laws and rates. A valuation allowance is provided on deferred tax assets if it is determined that it is more likely than not that the asset will not be realized.

We recognize the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. In the event that interest and/or penalties are assessed in connection with our tax filings, interest will be recorded as interest expense and penalties will be recorded as selling, general and administrative expense. We did not have any unrecognized tax benefits as of June 30, 2018 and 2017.

Stock Based Compensation

FASB ASC 718, *Stock Compensation*, requires all share-based payments to employees, including grants of stock options and restricted stock units ("RSUs") to be recognized in the financial statements based on their fair values at grant date and the recognition of the related expense over the period in which the share-based compensation vests. Non-cash charges of \$76,161 and \$18,225 for stock based compensation have been recorded for the three months ended June 30, 2018 and 2017, respectively.

Reclassifications

Certain amounts previously reported for prior periods have been reclassified to conform to the current year presentation in the accompanying condensed financial statements. Such reclassifications had no effect on the results of operations or shareholders' equity as previously recorded.

Overview

We principally provide uniformed security officers and aviation services to commercial, residential, financial, industrial, aviation and governmental customers through approximately 18 offices throughout the United States. In conjunction with providing these services, we assume responsibility for a variety of functions, including recruiting, hiring, training and supervising all operating personnel as well as paying such personnel and providing them with uniforms, fringe benefits and workers' compensation insurance.

Our customer-focused mission is to provide the best personalized supervision and management attention necessary to deliver timely and efficient security solutions so that our customers can operate in safe environments without disruption or loss. Technology underpins our efficiency, accuracy and dependability. We use a sophisticated software system that integrates scheduling, payroll and billing functions, giving customers the benefit of customized programs using the personnel best suited to the job.

Renewing and extending existing contracts and obtaining new contracts are crucial to our ability to generate revenues, earnings and cash flow. In addition, our growth strategy involves the acquisition and integration of complementary businesses in order to increase our scale within certain geographical areas, increase our market share in the markets in which we operate, gain market share in the markets in which we do not currently operate and improve our profitability. We intend to pursue suitable acquisition opportunities for contract security officer businesses. We frequently evaluate acquisition opportunities and, at any given time, may be in various stages of due diligence or preliminary discussions with respect to a number of potential acquisitions. However, we cannot assure you that we will identify any suitable acquisition candidates or, if identified, that we will be able to complete the acquisition of such candidates on favorable terms or at all.

The global security industry has grown largely due to an increasing fear of crime and terrorism. In the United States, the demand for security-related products and central station monitoring services also has grown steadily. We believe that there is continued heightened attention to and demand for security due to worldwide events, and the ensuing threat, or perceived threat, of criminal and terrorist activities. For these reasons, we expect that security will continue to be a key area of focus both domestically in the United States and abroad.

Demand for security officer services is dependent upon a number of factors, including, among other things, demographic trends, general economic variables such as growth in the gross domestic product, unemployment rates, consumer spending levels, perceived and actual crime rates, government legislation, terrorism sensitivity, war or external conflicts and technology.

Results of Operations

Revenues

Our revenues increased by \$0.3 million, or 0.7%, to \$44.1 million for the three months ended June 30, 2018, from \$43.8 million in the corresponding period of the prior year. The increase in revenues was due mainly to the commencement of work under new contracts with a large on-line retailer and its web services division in June and July 2017 and the commencement of work under a new contract with the United States Department of State at the U.S. Mission Tegucigalpa, Honduras in February 2018. These increases were partly offset by reductions in revenues from a major transportation company of approximately \$5.3 million following the Company's decision to terminate its relationship with this customer effective August 31, 2017.

Gross Profit

Our gross profit increased by \$0.5 million, or 9.0%, to \$5.5 million (12.5% of revenues) for the three months ended June 30, 2018, from \$5.0 million (11.5% of revenues) in the corresponding period of the prior year. The increase in gross profit was due mainly to the above-mentioned changes in revenue, a reduction in overhead costs associated with the above mentioned terminated contract, a decrease in workers compensation expense and a decrease in general liability claims expense.

General and Administrative Expenses

Our general and administrative expenses decreased by \$0.5 million, or 10.7%, to \$4.3 million (9.7% of revenues) for the three months ended June 30, 2018, from \$4.8 million (10.9% of revenues) in the corresponding period of the prior year. The decrease in general and administrative expenses was driven primarily by a reduction in administrative costs associated with the above mentioned terminated contract, partly offset by start-up costs incurred in connection with the above mentioned new contract to provide security services in Honduras for the U.S. Department of State.

Provision for Doubtful Accounts

The provision for doubtful accounts for the three months ended June 30, 2018, net of recoveries, increased by \$21,672 to \$24,160 as compared with \$2,488 in the corresponding period of the prior year. The increase in the net provision for doubtful accounts was primarily due to an increase in reserves for specific accounts considered uncollectible.

We periodically evaluate the requirement to provide for billing adjustments and/or credit losses on our accounts receivable. We provide for billing adjustments in cases where our management determines that there is a likelihood of a significant adjustment for disputed billings. Criteria used by management to evaluate the adequacy of the allowance for doubtful accounts include, among others, the creditworthiness of the customer, current trends, prior payment performance, the age of the receivables and our overall historical loss experience. Individual accounts are charged off against the allowance for doubtful accounts as our management deems them to be uncollectible. We do not know if bad debts will increase in future periods.

Interest Expense

Interest expense increased by \$75,645, or 82.3%, to \$167,572 for the three months ended June 30, 2018, from \$91,927 in the corresponding period of the prior year. The increase in interest expense for the three months ended June 30, 2018 was due mainly to higher average outstanding borrowings in support of higher revenues and higher average interest rates under our credit agreement with Wells Fargo, described below.

Provision for income taxes

The provision for income taxes increased by \$235,000 to \$319,000 for the three months ended June 30, 2018, compared with \$84,000 in the corresponding period of the prior year. The Company's effective tax rate decreased by 23.7% to 30.4% for the three months ended June 30, 2018 compared with 54.1% in the corresponding period of the prior year. The difference between the Company's effective tax rate of 30.4% for the three months ended June 30, 2018 and the Company's statutory tax rate of approximately 29% is primarily attributable to certain expenses that are not deductible for income tax purposes.

Liquidity and Capital Resources

We pay approximately 80% of our employees on a bi-weekly basis with the remaining employees being paid on a weekly basis, while customers pay for services generally within 60 days from the invoice date. We maintain a commercial revolving loan arrangement, currently with Wells Fargo Bank, National Association ("Wells Fargo"). We fund our payroll and operations primarily through borrowings under our \$35.0 million credit facility with Wells Fargo (as amended, the "Credit Agreement"), described below under "Short Term Borrowings."

We principally use short-term borrowings under our Credit Agreement to fund our accounts receivable. Our short-term borrowings have supported the accounts receivable associated with our organic growth. We intend to continue to use short-term borrowings to support our working capital requirements.

We believe that our existing funds, cash generated from operations, and existing sources of and access to financing are adequate to satisfy our working capital, capital expenditure and debt service requirements for the foreseeable future. However, we cannot assure you that this will continue to be the case. We may be required to obtain alternative or additional financing to maintain and expand our existing operations through the sale of our securities, an increase in the amount of available borrowings under our Credit Agreement, obtaining additional financing from other financial institutions, or otherwise. The failure by us to obtain such financing, if needed, would have a material adverse effect upon our business, financial condition and results of operations.

Short-Term Borrowings:

On February 12, 2009, we entered into a credit facility (the “Credit Agreement”) with Wells Fargo Bank, National Association (“Wells Fargo”). This credit facility, which was most recently amended in March 2018 (see below) and matures March 31, 2020, contains customary affirmative and negative covenants, including, among other things, covenants requiring us to maintain certain financial ratios and is collateralized by customer accounts receivable and certain other assets of the Company as defined in the Credit Agreement.

The Credit Agreement provides for a letter of credit sub-line in an aggregate amount of up to \$1.5 million. The Credit Agreement also provides for interest to be calculated on the outstanding principal balance of the revolving loans at the floating 90 day LIBOR rate plus 1.75%. For LIBOR loans, interest will be calculated on the outstanding principal balance of the LIBOR loans at the 30 day LIBOR rate plus 1.75%.

On March 14, 2018, we entered into a ninth amendment (the “Ninth Amendment”) to our Credit Agreement. The Ninth Amendment increased the revolving line of credit from \$27.5 million to \$35.0 million.

Under the Credit Agreement, as of June 30, 2018, the interest rate was 3.75% for LIBOR loans and 4.125% for revolving loans. At June 30, 2018 we had approximately \$1.4 million of cash on hand, \$13.0 million of LIBOR loans outstanding, \$3.6 million of revolving loans outstanding and \$0.3 million outstanding under our letters of credit sub-line under the Credit Agreement, representing approximately 64% of the maximum borrowing capacity under the Credit Agreement based on our “eligible accounts receivable” (as defined in the Credit Agreement) as of such date. As of the close of business July 30, 2018, we had total short term borrowings, net of cash, of approximately \$11.0 million, representing approximately 60% of the maximum borrowing capacity under the Credit Agreement based on our “eligible accounts receivable” (as defined in the Credit Agreement) as of such date.

We rely on our revolving loan from Wells Fargo which contains a fixed charge covenant and various other financial and non-financial covenants. If we breach a covenant, Wells Fargo has the right to immediately request the repayment in full of all borrowings under the Credit Agreement, unless Wells Fargo waives the breach. For the three months ended June 30, 2018, we were in compliance with all covenants under the Credit Agreement.

Investments and Capital Expenditures

We have no material commitments for capital expenditures at this time.

Working Capital

Our working capital increased by \$1.0 million, or 9.0%, to \$11.8 million as of June 30, 2018, from \$10.8 million as of March 31, 2018.

We had checks drawn in advance of future deposits of \$0.6 million at June 30, 2018 and \$1.2 million at March 31, 2018. Cash balances, book overdrafts and payroll and related expenses can fluctuate materially from day to day depending on such factors as collections and timing of payroll payments.

Outlook

Operating Initiatives

During the last few years the Company has pursued several initiatives to improve our competitive and strategic position. Significant progress has been made in rebuilding and strengthening our management team and improving the efficiency and functional effectiveness of our organization, systems and processes. The Company re-entered the U.S. federal government market with the commencement of work for the U.S. Postal Service (“USPS”) and in February 2018, we commenced work on an armed security contract for the U.S. Embassy in Honduras. More recently we were awarded a new contract to provide security services at the U.S. Embassy in Hong Kong which is scheduled to commence in October 2018. With the contract to provide physical security for data centers for the web services segment of the major on-line retailer, we have expanded our strategic focus to include the data center market space. Our Aviation division has also expanded to include the addition of cargo screening for a major domestic airline. Despite the recent loss of a significant scope of work with a major customer, we expect to continue to pursue similar large opportunities in multiple end markets. These large service agreements provide significant opportunities to leverage operating and administrative costs.

With a strong foundation and a more effective organization, the Company remains engaged in a corporate-wide campaign with four basic focus areas:

- Improved performance through better systems, procedures and training;
- Profitable top line revenue growth through identification of larger bid and proposal opportunities including new federal and international opportunities, the inclusion of a broad range of technology offerings to augment manned guarding and potential strategic opportunities;
- Dedicated marketing and sales efforts in specific industry sectors that complement our core capabilities, geographic presence and operational expertise; and,
- Attention to details and discipline that will drive operating efficiencies, and enhance enterprise value.

These strategic initiatives may result in future costs related to new business development, severance and other employee-related matters, litigation risks and expenses, and other costs. At this time we are unable to determine the scope of these potential costs.

Financial Results

Our future revenues will largely depend on our ability to gain additional business from new and existing customers in our security officer and aviation services divisions at acceptable margins, while minimizing terminations of contracts with existing customers. We may pursue complementary acquisition opportunities to leverage our management structure and deliver accretive earnings with acceptable collection terms. Our focus on larger, long-term service agreements provides another path to add significant additional revenue similar to that of the U.S. Postal Service contract and other commercial and federal contract opportunities. Our ability to complete future acquisitions will depend on our ability to identify suitable acquisition candidates, negotiate acceptable terms for their acquisition and, if necessary, finance those acquisitions. Our current focus is on increasing our revenues, as our sales and marketing teams and branch managers work to develop new business and retain profitable contracts. Also, intense competition from other security services companies impacts our ability to gain or maintain sales, gross margins and employees. During recent years, the Department of Homeland Security and the Transportation Security Administration have implemented numerous security measures that affect airline operations, including expanded cargo and baggage screening, and are likely to implement additional measures in the future. Additional measures taken to enhance either passenger or cargo security procedures in the future may increase the airline industry’s demand for third party services provided by us. Additionally, our aviation services division is continually subject to such government regulation, which has adversely affected us in the past with the federalization of the pre-board screening services and the document verification process at several of our domestic airport locations.

Our gross profit margin increased during the three months ended June 30, 2018 to 12.5% of revenues, compared with 11.5% during the corresponding period in the prior year. We expect gross profit to remain under pressure due primarily to continued price competition, including competition from companies that have substantially greater financial and other resources than we have. However, we expect these effects will be moderated by continued operational efficiencies resulting from better management and leveraging of our cost structures, workflow process efficiencies associated with our integrated financial software system and higher contributions from our continuing new business development.

For the three months ended June 30, 2018, our security services division generated approximately \$28.4 million or 64% of our total revenues and our aviation services division generated approximately \$15.7 million or 36% of our total revenues.

In the three months ended June 30, 2018, the Company had six customers, who represented approximately 60% of the Company’s total revenues. These six customers included two domestic and one international airline, the USPS, an online retailer and web services provider and a northeast U.S. based healthcare facility. Two of these six customers represented 22% and 16% of total revenue, respectively, for the three months ended June 30, 2018. The scope of work with the large online retailer representing 14% of total revenues was terminated effective May 31, 2018. Total revenues from the remaining five largest customers represent approximately 45% of the Company’s total revenues for the three months ended June 30, 2018.

As noted earlier, on February 12, 2009, we entered into a Credit Agreement with Wells Fargo, which was most recently amended in March 2018, as described above. As of the close of business July 30, 2018, we had total short term borrowings, net of cash, of approximately \$11.0 million, representing approximately 60% of the maximum borrowing capacity under the Credit Agreement based on our “eligible accounts receivable” (as defined in the Credit Agreement) as of such date, which we believe is sufficient to meet our needs for the foreseeable future barring any increase in reserves imposed by Wells Fargo. We believe that existing funds, cash generated from

operations, and existing sources of and access to financing are adequate to satisfy our working capital, planned capital expenditures and debt service requirements for the foreseeable future, barring any increase in reserves imposed by Wells Fargo. However, we cannot assure you that this will be the case, and we may be required to obtain alternative or additional financing to maintain and expand our existing operations through the sale of our securities, an increase in the amount of available borrowings under our Credit Agreement, obtaining additional financing from other financial institutions or otherwise. The financial markets generally, and the credit markets in particular, continue to be volatile, both in the United States and in other markets worldwide. The current market situation has resulted generally in substantial reductions in available loans to a broad spectrum of businesses, increased scrutiny by lenders of the credit-worthiness of borrowers, more restrictive covenants imposed by lenders upon borrowers under credit and similar agreements and, in some cases, increased interest rates under commercial and other loans. If we require alternative or additional financing at this or any other time, we cannot assure you that such financing will be available upon commercially acceptable terms or at all. If we fail to obtain additional financing when and if required by us, our business, financial condition and results of operations would be materially adversely affected.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

During the three months ended June 30, 2018, we did not hold a portfolio of securities instruments for either trading or speculative purposes. Periodically, we hold securities instruments for other than trading purposes. Due to the short-term nature of our investments, we believe that we have no material exposure to changes in the fair value as a result of market fluctuations.

We are exposed to market risk in connection with changes in interest rates, primarily in connection with outstanding balances under our revolving line of credit with Wells Fargo, which was entered into for purposes other than trading purposes. Based on our average outstanding balances during the three months ended June 30, 2018, a 1% change in the prime and/or LIBOR lending rates could impact our financial position and results of operations by approximately \$123,000 over the remainder of our fiscal year ending March 31, 2019. For additional information on the revolving line of credit with Wells Fargo, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources – Short Term Borrowings.”

Reference is made to Item 2 of Part I of this quarterly report, “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Forward Looking Statements.”

Item 4. Controls and Procedures

We maintain “disclosure controls and procedures”, as such term is defined under Rule 13a-15(e) of the Securities Exchange Act of 1934 (the “Exchange Act”), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures.

We believe that a control system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives and our Chief Executive Officer and Chief Financial Officer have concluded that such controls and procedures are effective at the reasonable assurance level.

An evaluation was performed under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation and subject to the foregoing, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 30, 2018. There have been no changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

See our discussion under Note 9 “Contingencies” to the Notes to Condensed Consolidated Financial Statements included in Item 1 of Part I of this Quarterly Report on Form 10-Q, which is incorporated herein by reference.

Item 1A. Risk Factors

There have been no material changes to our risk factors from those disclosed in our Annual Report on Form 10-K for our fiscal year ended March 31, 2018.

Certification Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Craig P. Coy, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Command Security Corporation;

2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;

3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;

4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant is made known to me by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under my supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**COMMAND SECURITY CORPORATION
REPORTS FINANCIAL RESULTS
FOR THE FIRST FISCAL QUARTER ENDED JUNE 30, 2018**

Herndon, VA***August 1, 2018***Command Security Corporation (NYSE American: MOC) (the “Company,” “we” or “us”) today reported its financial results for the fiscal first quarter ended June 30, 2018.

Highlights for the quarter include the following:

- Total revenues increased to \$44.1 million, a \$0.3 million increase, compared to the same quarter of the prior year.
- Gross profit increased by 9.0% to \$5.5 million, or 12.5% of revenues compared to 11.5% of revenues in the prior year.
- Selling, general and administrative (“SG&A”) costs were 9.7% of revenues, or \$4.3 million, compared to 10.9% of revenues, or \$4.8 million, in the prior year.
- Operating income was \$1.2 million, or 2.8% of revenues, compared to \$0.3 million or 0.6% of revenues, in the prior year.
- Net income was \$729,835 or \$0.07 per share compared to \$71,351 or \$0.01 per share in the prior year.

Revenue Base and Outlook

During the quarter ended June 30, 2018, revenues related to the previously announced lost scope of work from the Company’s large on-line retailer were \$6.2 million. However, in recent months, the Company has been successful in securing several new business awards, the commencement of which is staggered throughout the first six months of fiscal year 2019. These new business awards are expected to aggregate approximately \$10.0 million of annual revenue and are expected to generate approximately \$6.0 million of revenues in fiscal year 2019. While the Company has not previously provided revenue guidance and may not do so in the future, given the significance of recent changes in the Company’s revenue base, we believe it is important at this time to provide limited guidance as to future revenues. Based on current revenue run rates, new business awards to date and projected new business wins for the remainder of the year, full year fiscal 2019 revenues are currently projected to be between approximately \$168.0 million and \$173.0 million.

New Business Development

Since March 2018, the Company has been successful in its pursuit of several new, strategically important business opportunities. These include the U. S. Embassy in Hong Kong, our second strategically important new business award from the U. S. Department of State, the previously announced aviation security business award for the new terminal at LaGuardia International Airport, and a security services work award for a large west coast grocery distribution center.

Gross Profit

Gross profit increased by approximately \$0.5 million and as a percent of revenues increased from 11.5% to 12.5% compared to the same quarter of the prior year. Direct labor as a percent of revenues was unchanged as compared to the same quarter of the prior year. The increase in the gross profit percentage was primarily attributable to lower workers' compensation and general liability costs. The availability of qualified personnel and rising labor costs, including the effects of employee turnover and overtime costs, has and will continue to be a primary area of management focus. The increasing cost of labor, including the effects of legislated increases in wage rates and the increasing demand for personnel, requires timely and effective methods to recruit personnel, control costs and in some cases, increase pricing. Rising labor costs and availability of qualified personnel will continue to remain a challenge for the Company as well as the entire industry.

SG&A

The reduction in SG&A costs in the quarter ended June 30, 2018 as compared to the same quarter of the prior year was primarily driven by lower administrative wages, temporary labor and facility costs partly offset by an increase in legal costs. The Company has and will continue to work aggressively to control SG&A costs, however, given the recently reported decline in revenues, SG&A as a percent of revenues may increase in the future.

Interest Expense

Interest expense in the quarter ended June 30, 2018 increased by approximately \$76,000 as compared to the same period in the prior year. The increase was due primarily to increased borrowings in support of revenue growth and higher average interest rates under our short-term revolving credit agreement.

Liquidity, Capital Resources and Outlook

We pay approximately 80% of our employees on a bi-weekly basis and we pay the remaining employees on a weekly basis, while customers pay for services generally within 45 to 60 days from the invoice date. We maintain a \$35.0 million short-term revolving loan arrangement to fund our accounts receivable. At June 30, 2018, short-term borrowings net of cash ("net debt") was \$15.2 million, representing 64% of the maximum borrowing capacity under the short-term loan agreement. As of July 30, 2018, net debt was \$11.0 million representing approximately 60% of our borrowing capacity on that date. From August 2018 through March 31, 2019, we expect net debt under the credit agreement to range from approximately \$7.0 million to \$12.0 million with additional remaining availability ranging from approximately \$9.0 million to \$11.0 million.

Craig P. Coy, the Company's CEO said, "We remain in a very strong position in a very competitive market. Recent announcements of very large competitors merging indicate the continued interest in the manned guarding space. Our agility and continued focus on customer performance will allow us to compete aggressively. Strategic opportunities for growth remain with a strong pipeline and new initiatives to deploy technology alternatives. Our management team is focused and driven to execute."

About Command Security Corporation

Command Security Corporation and its Aviation Safeguards division provide uniformed security officers and aviation security services to commercial, financial, industrial, aviation and governmental customers throughout the United States. As our credo states “*Securing All You Value,*” we safeguard against theft, fraud, fire, intrusion, vandalism and the many other threats that our customers are facing today. By partnering with each customer, we design programs customized to meet their specific security needs and address their particular concerns. We bring years of expertise, including sophisticated systems for hiring, training, supervision and oversight, backed by cutting-edge technology, to every situation that our customers face involving security. Our mission is to enable our customers to operate their businesses without disruption or loss, and to create safe environments for their employees. For more information concerning our company, please refer to our website at www.commandsecurity.com.

Forward-Looking Statements

This announcement by the Company contains forward-looking statements within the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 about the Company that are based on management’s assumptions, expectations and projections about the Company. Some of these expectations may be based upon assumptions, data or judgments that may prove to be incorrect. These forward-looking statements include, without limitation, statements with respect to our revenue guidance and projections, expected revenue generated by new business, projected new business wins, and expected borrowings under our revolving loan arrangement. Such forward-looking statements by their nature involve a degree of risk and uncertainty. Actual events, results and outcomes may differ materially from our expectations due to a variety of known and unknown risks, uncertainties and other factors. The Company cautions that actual results of the Company could differ materially from those projected in the forward-looking statements as a result of various factors, including but not limited to the factors described under the heading “Risk Factors” in the Company’s most recent Annual Report on Form 10-K for the fiscal year ended March 31, 2018 filed with the U.S. Securities and Exchange Commission (the “SEC”), and such other risks disclosed from time to time in the Company’s periodic and other reports filed with the SEC. You should consider the areas of risk described above in connection with any forward-looking statements that may be made by the Company. The forward-looking statements herein speak only as of the date the statements are made (which is the date of this press release). You should not put undue reliance on any forward-looking statements. The Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. If we do update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements. You are advised, however, to consult any additional disclosures the Company makes in proxy statements, quarterly reports on Form 10-Q, annual reports on Form 10-K and current reports on Form 8-K filed with the SEC.
